We build quality into every component of our Amana® brand heating and air conditioning products. That's why our **Amana® Distinctions™ brand SSX16 High-Efficiency Air Conditioner** has a Seasonal Energy Efficiency Rating (SEER) of up to 16 — a significant improvement in efficiency over many of the lower SEER units installed in homes today. With an **Amana Distinctions brand SSX16 Air Conditioner**, your savings, versus lower SEER units can add up very quickly — especially in hot weather, when energy use can increase dramatically.

The savings start with our efficient condensing coil design. We use only high-quality rifled copper tubing and corrugated aluminum fins, which withstand the corrosive effects of moisture and extreme temperatures. Our coil design provides more cooling surface, which further increases efficiency and decreases your energy bill. Additionally, every coil that goes into an **Amana Distinctions brand SSX16 Air Conditioner** is thoroughly tested.
